Assessment from the EBD Perspective

#EBDGrafik

What's Missing?

Concrete steps **for future-proof and enlargement-capable reforms of the EU without fear of treaty changes** and with a strengthening of the European Parliament

Clear prioritization and ambitious goals for **EU enlargement with the Western Balkans, Ukraine, Moldova, and other candidate countries**, including tangible interim steps such as observer status in the EP

Prioritizing measures to uphold and promote **European values and fundamental rights such as the rule of law** through effective sanction measures or a timely **accession of the EU to the European Convention on Human Rights (ECHR)**

Early discussion on the upcoming **negotiations for the new Multiannual Financial Framework 2028-2034** and EU own resources for the repayment of Next Generation EU funds.

Important for the European Movement Germany

- Effective combating of disinformation, foreign manipulation, and cyberattacks to safeguard European democracy and its open societies.
- Strengthening the Schengen Area and reducing internal border controls.
- Enhancing Europe's military capabilities and cooperation in defense policy, particularly in the context of Russia's aggression against Ukraine.
- Boosting the competitiveness of European companies and their capacity for innovation.
